

Dangbei

Dangbei Mars Pro 4K Laser Projector, 3200LM

252764

The projector Dangbei Mars Pro boasts true 4K UHD and Advanced Laser Phosphor Display (ALPD®) technology and illuminates your viewing with 3200 ANSI Lumens and a grand 200" projection. The AI Realistic Pro Image Engine fine-tunes quality while MEMC ensures sharp, blur-free motion. Tailored brightness with AI, superior audio with Dolby & DTS-HD, and a 30,000-hour light source make it the ultimate home theater companion, now and for year to come. Elegant in design, it offers smooth performance, eye protection, and versatile connectivity.

PRODUCT DETAILS

Stunning Clarity & Colors

Experience something truly cinematic with true 4K UHD. With 3840x2160 resolution and the Advanced Laser Phosphor Display (ALPD) technology, the Dangbei Mars Pro brings your favorite films and shows to life with clarity and vivid colors like never before.

Advanced Laser Phosphor Display (ALPD®)

As a leading display technology in the projection industry, ALPD® uses fluorescent materials for image display, featuring high brightness, wide color gamut, long life, low energy consumption, and superior image quality.

Bright. Brighter. Brightest.

The Dangbei Mars Pro stands out in 3200 ANSI Lumens brightness, making it a perfect choice when you want to watch dramas or sports before the sun goes down. Enjoy your home theater at any time of the day.

200" Image, 200" Joy

Dedicated for all devoted moviegoers, the Dangbei Mars Pro creates a large 200" image that beats 4K TVs. 40"-200" projection with a throw ratio of 1.27:1 allows it to fit any space.

AI Realistic Pro Image Engine

The exclusive AI Realistic Pro Image Engine optimizes picture quality in real time, showing richer dynamic colors and details to present the most realistic images.

More Details. Less Loss.

Supporting HDR10 and HLG formats, the Dangbei Mars Pro offers an impressive contrast to ensure excellent colors, with even more details in shadows and highlights.

Make Every Moment Crisp

The MEMC (Motion Estimation, Motion Compensation) technology helps deliver all the fast-paced content with super-low image blur. Have a clear view of all your fave sports events!

Get Smarter With AI

The Dangbei Mars Pro can detect the level of ambient light and adjust the brightness of the image with AI. Your viewing experience can be tailored specifically for any environment without fail.

Blow You Away With Sounds

The Dangbei Mars Pro offers dual 10W speakers and support for Dolby Audio & DTS-HD movie soundtracks. Hear all your favorites come to life with amazing clarity.

Made for Ultimate Convenience

A hassle-free setup allows you to easily project your favorite movies, presentations, games and more onto large screens with ease.

Intelligence Changes Lives

You don't need to rearrange your entire living space for a projector anymore! The Mars Pro automatically fits to your screen, and avoids sockets and decorations on the wall to present you with a perfect image in seconds.

Smooth & Stable Experience

4GB RAM always ensures a smooth and seamless experience when you're having fun with the Mars Pro. Dive deep into a wide range of apps with 128GB storage and exclusive Game Mode with low latency down to 20ms!

A Long and Sweet Companion

The Dangbei Mars Pro has a light source life of up to 30,000 hours, so you won't have to worry about replacing it anytime soon! Not to mention that it is more eco-friendly than a TV.

Eye Protection for Infinite Joy

The Dangbei Mars Pro is TÜV Low Blue Light certified to effectively reduce visual fatigue. If you plan on binge watching TV shows or playing episodes of cartoons for kids, the Mars Pro is an ideal option.

Blend of Art & Science

The Mars Pro is mostly made from metal, with a 2.5D glass on the top, delivering a dazzling look and a smooth touch. Decorated with aircraft aluminum, the sense of technology makes it an elegant home décor at the same time.

Always Stay Connected

Featuring a variety of connections, wire or wireless, the Dangbei Mars Pro always exposes you to limitless entertainment.
