

BLUETOOTH HD AUDIO-RECEIVER

BLUETOOTH® 5.0 | aptX HD® | NFC

Enjoy your favourite music from your smart phone, tablet PC or laptop – as well as from your iPhone or iPad – conveniently and wirelessly on your high-end HiFi system. Thanks to the special aptX®HD technology, you can also enjoy it in first-class CD quality. The Premium Bluetooth® Receiver supports all common standards such as A2DP and SBC and is compatible with almost all Bluetooth®-capable devices regardless of brand. The Premium Bluetooth® Receiver stores up to eight devices. Once these devices are paired with the receiver, they are automatically recognized again, allowing the connection to be more quickly reestablished. In addition to the usual analogue output (3.5 mm jack), the receiver also has an optical digital output that enables it to be connected to new generations of amplifiers.
