

INLINE® UNIVERSAL CABLE GUIDE RAIL, 3 LEVELS 80/100/120 CM, FOR UNDER-TABLE MOUNTING, WITH SCREW CLAMPS, BLACK

This adjustable cable management rail from InLine is ideal for cable management at the workplace or in the home office. Connection cables and socket strips are guided under the desk and hidden. This creates order, protects the cables and ensures a tidy design. Thanks to the adjustable rail (80/100/120 cm), the cable routing can be flexibly adapted to the respective needs and desk size. It is easily mounted without tools using a screw clamp that is fixed to the desk top without damaging it. The open design reduces heat generation and provides additional flexibility for cable routing. Made of sturdy steel, this cable guide rail is particularly robust and durable.

- Cable management system, universal rail for under-table mounting
- Simple design: Hides multiple sockets, connection and power cables for a clean work area and helps to reduce heat build-up with open design
- Easy installation: Can be mounted under the tabletop without tools, using a screw clamp
- Freedom of movement: Cable management allows movement through a height-adjustable desk while preventing damage to cabling or desk
- 3 level adjustment: Before attaching the cable guide rail to the table, you can adjust the length in 3 levels from 80 cm, to 100 cm or 120 cm with 4 screws
- Colour: Black
- Material: Steel
- Dimensions: 80/100/120 x 10.5 x 20.7 cm
