Preface

Thank you for purchasing the Nedis CKAA2400BK.

This document is the user manual and contains all the information for correct, efficient and safe use of the product.

Ensure you have fully read and understood the instructions in this document before you install or use the product. Keep the packaging and this document for future reference.

Intended use

This product is a 2-in-1 wireless car audio adapter that allows you to convert a factory wired Apple CarPlay or Android Auto system into a fully wireless connection.

The Plug & Play system allows instant wireless connectivity without the need for apps or manual configuration.

The product is intended for use with compatible smartphones running iOS 10 or later, iPhone 6 or later, or Android 11 and later.

This product is intended for indoor use only.

This product is intended to be used in cars and similar vehicles.

This product is not intended for professional use.

Any modification of the product may have consequences for safety, warranty and proper functioning.

Safety instructions

Ensure you have fully read and understood the instructions in this document before you install or use the product. Keep the packaging and this document for future reference.

⚠ WARNING

Electrical hazard:

- Do not expose the product to water, rain, moisture or high humidity.
- Do not exceed the rated power voltage of the product.
- Do not use the product if a part is damaged or defective. Replace a damaged or defective product immediately.
- Do not immerse the product in water or other liquids.
- Disconnect the product from the power source before cleaning.

Choking hazard:

- Do not let children play with the packaging material. Always keep the packaging material out of the reach of children.
- Keep away from children and animals to avoid chewing or swallowing.

⚠ CAUTION!

Personal safety:

- Only use the product as described in this document.
- Do not operate the device or watch video's while driving.
- Do not open the product, there are no user serviceable parts inside.
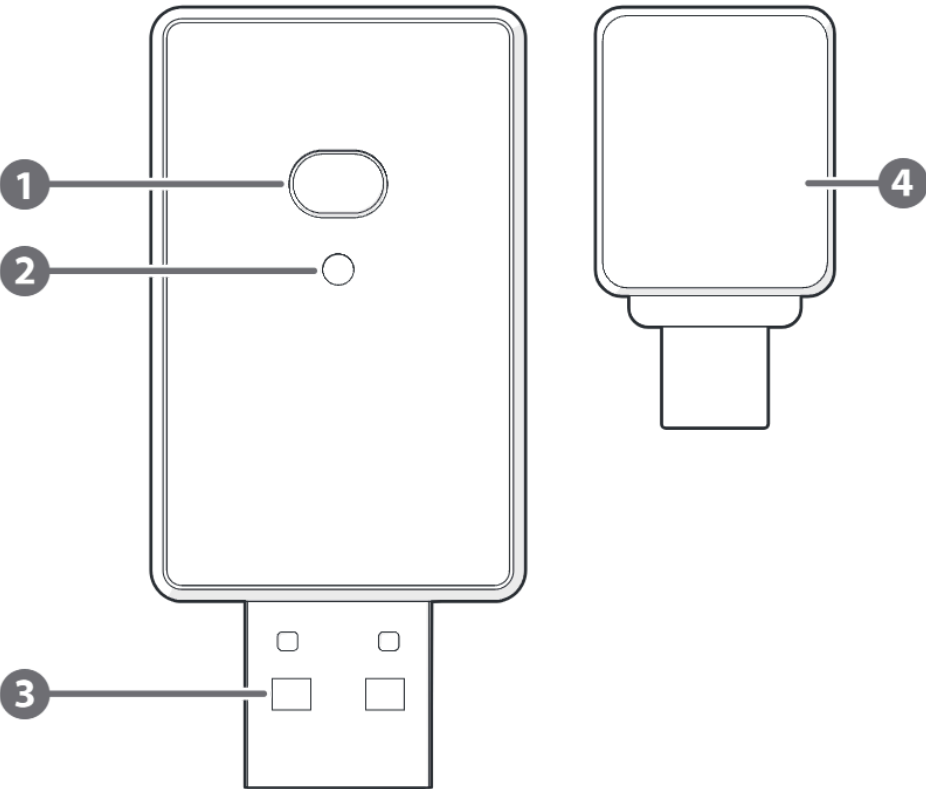

ⓘ NOTICE

Risk of damaging the product:

- Do not use aggressive chemical cleaning agents when cleaning the product.
- Do not drop the product and avoid bumping.
- Do not expose the product to heat, cold or direct sunlight.

Specifications

Product	2-in-1 Wireless Car Audio Adapter
Article number	CKAA2400BK
Dimensions	50 x 24 x 8,7 mm
Input voltage / current	5 V / 1.0 A

Wi-Fi frequency	802.11 a/b/g/n/ac, 2.4 G + 5 G
Connection	USB-A™
Adapter	USB-C™
Wireless Apple CarPlay requirements	iPhone 6 and above, iOS 10 and above
Wireless Android Auto requirements	Android 11.0 and above
Power consumption	2 W
Standby power consumption	0.7 W
Power consumption in OFF mode	0 W

Installation

## Check the contents of the package

Check that all parts are present and that no damage is visible on the parts. If parts are missing or damaged, contact the Nedis B.V. service desk via the website: www.nedis.com.

Installing the product

1. Start the vehicle.
2. Insert the product into the USB-A port of the vehicle.
    The indicator LED **A❷** lights up blue.
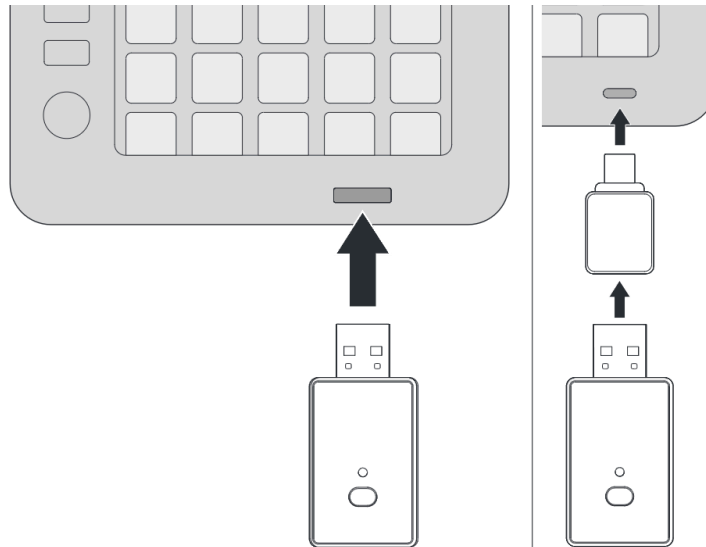

ℹ️   If the vehicle only has a USB-C port, use the USB-A to USB-C adapter **A❹** to insert the product.

Connecting the product

ℹ️   Apple CarPlay requires an iPhone 6 or newer model with iOS 10 or newer to operate.

ℹ️   Android Auto requires a model that supports Android 11 or newer to operate.
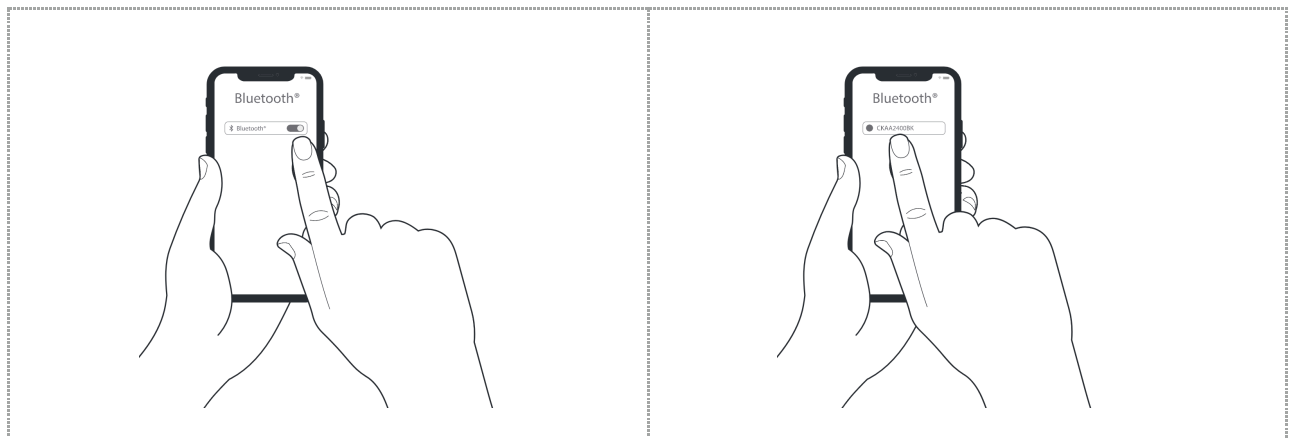

1.   Activate Wi-Fi on your smartphone.

2.   Activate Bluetooth pairing mode on your smartphone.

     The indicator LED **A❷** pulses green.

3.   Select the product name (CKAA2400BK) to connect with the product.

4.   Agree to all requests.

     The indicator LED **A❷** lights up green when the product is successfully connected.

User manual   EN ⌄

Upgrading firmware while the product is connected to the vehicle

1.   Make sure your smartphone is connected to the internet.
2.   Open an internet browser on your smartphone.
3.   Enter 192.168.1.101 in the address bar and press Search.
      The firmware upgrade page opens.
4.   Tap the Update button to start the firmware upgrade.
      The indicator LED **A**2 pulses green and red.
ⓘ   The indicator LED **A**2 lights up white when the upgrade is complete.

Upgrading firmware while the product is not connected to the vehicle

1.   Make sure your smartphone is connected to the internet.
2.   Plug the product into a compatible USB port with power.
ⓘ   Use the adapter **A**4 if necessary.
ⓘ   Do not disconnect the power source while upgrading.
3.   Connect the product to your smartphone (see chapter Connecting the product)
4.   Open an internet browser on your smartphone.
5.   Enter 192.168.1.101 in the address bar and press Search.
      The firmware upgrade page opens.
6.   Tap the Update button to start the firmware upgrade.
      The indicator LED **A**2 pulses green and red.
ⓘ   The indicator LED **A**2 lights up white when the upgrade is complete.
7.   Unplug the product.
ⓘ   Reconnect the product to your smartphone after the upgrade.

Upgrading firmware for Android

Upgrading firmware while the product is connected to the vehicle

1.   Make sure your smartphone is connected to the internet.
2.   Open an internet browser on your smartphone.
3.   Enter 192.168.1.101 in the address bar and press Search.
      The firmware upgrade page opens.

ⓘ The indicator LED **A**❷ lights up white when the upgrade is complete.

Upgrading firmware while the product is not connected to the vehicle

1. Make sure your smartphone is connected to the internet.
2. Plug the product into a compatible USB port with power.
