Speed: 33, 45 (electronic speed change) Drive principle: belt drive Platter: 300mm MDF Mains bearing: stainless steel Wow & flutter: +/- 0,08% Speed drift: +/- 0,5% Signal to noise: - 70dB Tonearm: 9" S-Shape aluminium Effective arm length: 230 mm Effective arm mass: 8,5 g Overhang: 18 mm Tracking force: 10 - 30mN Included accessories: 15 volts DC / 800 mA power supply, dust cover Power connection: 110/120 or 230/240 Volt - 50 or 60 Hz **Power consumption:** 4 watt max / < 0,5 watt standby Dimensions: 460 x 160 x 360 mm (WxHxD) lid closed Weight: 7,7 kg net

Outstanding performance from a compact and luxurious turntable configuration

2Xperience SB S-Shape is based on the 2Xperience belt-drive concept which incorporates over 25 years of turntable design experience. The addition of precision motor control with electronic speed changing and a highend 9" S-shape aluminium tonearm means playback quality is vastly improved. The heavy chassis is made from MDF using a non-resonant construction technique. The turntable platter is built with heavy, non-resonant materials in a precisely balanced sandwich configuration. A vinyl layer acts as the perfect turntable mat. A screwable, precision diamond cut and light-weight record clamp eliminates unwanted record vibration and rumbling of the main platter bearing. The audio performance of the final product benefits from the resonance-free platter, avoiding the ringing effect of common metal and glass platters. An acrylic dust cover is also included.

The top grade aluminium S-Shaped tonearm convinces with a harmonic, musical and engaging sound. Because of the detachable head-shell it is very easy to swapoutcartridges.Foryour daily use you can utilize an MM system and for the pure listening pleasure you can change to an MC system.
