Easy control of multiple DS/DS2/DS3 & RS/RS2 components!

Control it RS is a universal remote control with beautiful aluminium housing front for the Box Design lines DS/DS2/DS3 & RS/RS2!

It makes it incredibly easy to navigate on your Stream Box, turn the volume up on your Pre Box or to switch the inputs on your DAC. All without taking another remote control in your hand. You only have to change to the device you want to control by pushbutton.

Therefore, this is the remote you really need, because Control it RS is able to replace all existing Box Design remotes completely!
