

INSTRUCTIONS FOR USE
DAC Box E mobile

Content:

1x DAC Box E mobile
1x USB C to OTG USB micro B cable
1x Manual

Using DAC Box E mobile:

Please connect DAC Box E mobile with your device corresponding to the image below.

For devices with a micro USB B output (eg.: some Android devices) please use the supplied connection cable.
For Apple devices you will need a Lightning to USB camera adapter, as well as a USB A to USB C cable (these are not supplied).

For PC's and Laptops please use a USB A to USB C cable (not supplied).

Chose DAC Box E mobile as your primary output device in the settings menu of your device. The volume control is handled by the system-control. Please beware from listening to too loud music, as this can damage your hearing. Therefore we advise not to listen at too high volumes.

DAC Box E mobile does not contain any batteries, it sources its power directly from the output of your smartphone, tablet or PC/Laptops.

Connecting DAC Box E mobile with various devices:
