

3000 Micro R|Evolution

Compact Without Compromise.

Punches well above its size with deep, effortless, musical bass from a décor-friendly enclosure.

3000 Micro R|Evolution fuses groundbreaking advancements from the flagship SVS subwoofer Series with its own innovations to redefine what is possible from a compact subwoofer.

Frequency Response: 20Hz to 230Hz +/-3dB

Driver: 9" Force Balanced Dual-Opposing

Amplifier: 1,200 Watts Continuous, 4,000+ Watts Peak with Discrete MOSFET Output

Dimensions: 10.9" (278mm) H X 11.8" 298.8mm) W X 10.8" (273.6mm) D

- » **Force Balanced Dual Opposing Active 9" Drivers** deliver deep and authoritative low end with accuracy and detail.
- » **1,200-Watt Continuous, 4,000+ Watt Peak Class-D Amplifier** with discrete MOSFET output stage generates immense current while maintaining precise control and pristine signal integrity.
- » **295MHz Analog Devices DSP** monitors and controls power delivery, thermal management, driver excursion, and more to ensure uncompromised system performance.
- » **Acoustically Optimized Compact 11" Cabinet** blends seamlessly into any room and energizes a space with astonishingly rich and detailed bass.
- » **Switch Mode Power Supply** maintains a consistent voltage while conditioning AC line power for optimal performance under any conditions.
- » **SVS Subwoofer Control Smartphone App** simplifies usability while improving sound quality in any room.
- » **SVS Auto EQ** applies precision EQ filters tailored to the listener's unique environment to optimize in-room response.
