

## SUPRA USB 2.0 A & B plugs

Detachable USB plugs

Type A male and Type B male

Rev.date: 2023-04-17

SCustoms tariff no: 8536901000

Country of origin: Taiwan

- Detachable connectors for wiring in conduit pipes
- Bit-correct data transmission - a prerequisite for the best quality
- Fully shielded in aluminium, minimal signal degradation
- Robust connectors - Makes reliable cables with a long service life

### USB plugs for cable assembly

Proprietary USB connector to ensure Supra USB cable's staggering bandwidth and bit rate. Suitable for self-termination (requires some soldering skills). All our USB Excalibur cables in finished lengths are terminated with this connector. Fully shielded in aluminum and 24K gold-plated pins for best contact and interference immunity.

- Easy to connect (soldering skills required)
- Powerful and stable cable strain relief
- Specially designed to ensure the high bit rate requirements of our USB cable
