

EB-L1050U

DATASHEET / BROCHURE

The fit-and-forget laser projector with interchangeable lenses, that's ideal for scenarios that demand large, detailed and powerful images.

This affordable 5,500 lumens installation projector, with interchangeable lenses and laser image quality, is sold as 'body only' which allows the user to choose the most appropriate lens from Epson's wide range. With flexible installation, low maintenance, and a modern and compact design, this laser projector can be used in a range of large venues.

Superior image quality

The EB-L1050U projects clear whites, vivid details, deep blacks, defined shadows and high contrast imagery.

Flexible installation

The compact, unobtrusive design allows this projector to blend seamlessly into most environments. Its 360 degree usage arc and tilt-free technology, mean you can project in any direction.

Interchangeable lenses

Just as a specific scenario dictates which camera lens is most appropriate to use – the same is true with different projection environments. That's why we've designed our projector body to accommodate different lenses. There are 11 interchangeable Epson lenses available, covering short to long-throw projection. No lens is included with this projector.

Reliable

Epson has developed a 'maintenance-free light source' alternative laser projector range that's truly fit-and-forget.

KEY FEATURES

- **Fit and forget**
Fit almost anywhere. 360 degree angle projection freedom
- **Lens support**
Supports a wide selection of Epson interchangeable lenses
- **Enhanced design**
Clean, simple, compact and discreet design. White version.
- **Image quality**
5,500 lumens, 4K enhancement, CLO, 3LCD, 2000:1 native contrast
- **Support**
Five year / 20,000 hour warranty
